OPTI

SMART OPTIONS & ACCESSORIES FOR DESKS AND MEETING TABLES

Opti is our smart range of easily accessible and user-friendly options & accessories for desks and meeting tables. Tested for the best possible ergonomics, and tested for maximum quality and safety. They provide the functionality you need and provide considered and well-designed solutions that contribute towards an organised environment. The range includes different solutions for cable management, which are flexible and easy to install, and which give a tidy look. There are also options for power and network outlets that are positioned to be close at hand. Regardless of the type of working environment or meeting space, you can find a customised solution for connecting or charging. Our accessories also include ergonomic solutions that make your working day easier - such as, for example, CPU holders, relaxing armrests for your desk, and adjustable monitor arms.

CONTENTS

POWER & CONNECTION

Having technology close at hand and easily accessible with a tidy impression makes work easier and more efficient, both at the desk and in the meeting room. We have many variations of stylish and functional connections for power and charging, both concealed and visible. All are tried, tested and accredited by a third-party laboratory.

POWERBOX
O663
Integrated into the table for easy access to electrical and network connections. Spacious compartments to conceal cables. Can also be closed when plugged in.

Connections: 3 power sockets
Dimensions: 294x170x60 mm
(Hole pattern: 279x155 mm)
Colour: Silver, black or white
Goes with: Series[P], Oberon, Nano, Nexus and Fields

POWERBOX
O663N
Integrated into the table for easy access to electrical and network connections. Spacious compartments to conceal cables. Can also be closed when plugged in.

Connections: 3 power sockets,
1 network connection
and 1 USB connection.
Dimensions: 294x170x60 mm
(Hole pattern: 279x155 mm)
Colour: Silver, black or white
Goes with: Series[P], Oberon, Nano, Nexus and Fields

POWERBOX
PB663
Integrated into the table for easy access to electrical and network connections. Spacious compartments to conceal cables. Can also be closed when plugged in. Delivered with Wieland and an extension cord in several sizes.

Connections: 2 power sockets, 2 charging USB A connectors (5.2V/2.15A in total) and 1 optional module.
Dimensions: 294x170x60 mm
(Hole pattern: 279x155 mm)
Colour: Silver, black or white
Goes with: Series[P], Oberon, Nano, Nexus

POWERBOX
PB664

Integrated into the table for easy access to electrical and network connections. Spacious compartments to conceal cables. Can also be closed when plugged in. Delivered with Wieland and an extension cord in several sizes.

Connections: 3 power sockets and 1 optional module.
Dimensions: 294x170x60 mm (Hole pattern: 279x155 mm)
Colour: Silver, black or white
Goes with: Series[P], Oberon, Nano, Nexus

POWER CLAMP
PCL1-S

Flexible and movable placement by mounting around the table top. For easily accessible electrical and network connection. Delivered with Wieland and an extension cord in several sizes.

Connections: 2 power sockets, 2 charging USB A connectors (5.2V/2.15A in total) 1 optional module.
Dimensions: 241x85.5x88 mm
Colour: White
Goes with: Series[E] one, Series[P], Oberon, Nano, Nexus and Polaris

CONFERENCE BOX SMALL
ACB1-S

Solid storage unit in sheet metal with a lid that can be opened in two directions. Space for electrical modules, multiway sockets and cables.

Dimensions: 335x150x155 mm (Hole pattern: 302x134 mm)
Colour: Silver, black or white
Goes with: Series[E] one conference table, Oberon conference table, Nexus conference table and Multicom

CONFERENCE BOX LARGE
ACB1-L

Solid storage unit in sheet metal with a lid that can be opened in two directions. Space for electrical modules, multiway sockets and cables.
Dimensions: 515x150x155 mm (Hole pattern: 482x134 mm)
Colour: Silver, black or white
Goes with: Series[E] one conference table, Oberon conference table, Nexus conference table and Multicom

CONFERENCE LID SMALL
ACB2-S

Solid sheet metal lid that can be opened in two directions. Should be supplemented with a cable tray.

Dimensions: 335x150x42 mm (Hole pattern: 302x134 mm)
Colour: Silver, black or white
Goes with: Series[E] one conference table, Oberon conference table, Nexus conference table.

CONFERENCE LID LARGE
ACB2-L

Solid sheet metal lid that can be opened in two directions. Should be supplemented with a cable tray.

Dimensions: 515x150x42 mm (Hole pattern: 482x134 mm)
Colour: Silver, black or white
Goes with: Series[E] one conference table, Oberon conference table, Nexus conference table.

CONFERENCE MODULE APM3
ACB33

Electrical module with lid, integrated into the tabletop. Delivered with Wieland and an extension cord in several sizes.

Connections: 2 power sockets, 2 charging USB A (5.2V/2.15A in total), 1 optional module
Dimensions: 300x87x53 mm
(Hole pattern: 268x61 mm)
Colour: Brushed aluminium
Goes with: Series[P], Oberon, Nano, Nexus

CONFERENCE MODULE APM4
ACB34

Electrical module with lid, integrated into the tabletop. Delivered with Wieland and an extension cord in several sizes.

Connections: 3 power sockets, 1 optional module
Dimensions: 300x87x53 mm
(Hole pattern: 268x61 mm)
Colour: Brushed aluminium
Goes with: Series[P], Oberon, Nano, Nexus

ELECTRICAL MODULE 1
APM1

Extension cable that fits in conference boxes ACB1-S, ACB1-L, etc. or in a separate cable tray.

Connections: 4 power sockets
Dimensions: 200x54x40 mm
Colour: Black
Goes with: Universal

ELECTRICAL MODULE 2
APM2

Extension cable that fits in conference box ACB1-L, etc. or in a separate cable tray.

Connections: 6 power sockets
Dimensions: 350x56x41 mm
Colour: Black
Goes with: Universal

ELECTRICAL MODULE 3
APM3

Flexible electrical and network module for placement in conference boxes ACB1-S or ACB1-L, etc. Delivered with Wieland and an extension cord in several sizes.

Connections: 2 power sockets, 2 charging USB A (5.2V/2.15A in total), 1 optional module.
Dimensions: 262x44x51 mm
Colour: Black / silver
Goes with: Universal

ELECTRICAL MODULE 4
APM4

Flexible electrical and network module for placement in conference boxes ACB1-S or ACB1-L, etc. Delivered with Wieland and an extension cord in several sizes.

Connections: 3 power sockets, 1 optional module.
Dimensions: 262x44x51 mm
Colour: Black / silver
Goes with: Universal

ELECTRICAL MODULE 5
APM5

Flexible electrical and network module for placement in conference box ACB1-L, etc. Delivered with Wieland and an extension cord in several sizes.

Connections: 4 power sockets, 2 charging USB A (5.2V/2.15A total), 3 optional modules
Dimensions: 443x44x51 mm
Colour: Black / silver
Goes with: Universal

COVER LID A
ACM-A

A stylish lid that conceals holes without a module.

Colour: Black
Goes with: Goes with all of Kinnarps' configurable electrical modules in optional socket module

SOCKET MODULE B
ACM-B

The module contains 1 stereo port, 1 HDMI 2.0 port and 1 VGA port 3.5 mm stereo.

Colour: Black
Goes with: Goes with all of Kinnarps' configurable electrical modules in optional socket module

SOCKET MODULE C
ACM-C

The module contains 1 stereo port and 1 VGA port 3.5 mm stereo.

Colour: Black
Goes with: Goes with all of Kinnarps' configurable electrical modules in optional socket module
SOCKET MODULE D
ACM-D

The module contains 1 HDMI 2.0 port and 1 display port.

Colour: Black
Goes with: Goes with all of Kinnarps' configurable electrical modules in optional socket module
SOCKET MODULE EGI
ACM-EGI

The module contains 1 RJ45 2.0 port and 1 HDMI 2.0 port.

Colour: Black
Goes with: Goes with all of Kinnarps' configurable electrical modules in optional socket module

SOCKET MODULE EGH
ACM-EGH

The module contains 1 RJ45 port and 1 non-charging USB 3.0 port.

Colour: Black
Goes with: Goes with all of Kinnarps' configurable electrical modules in optional socket module

SOCKET MODULE EGG
ACM-EGG

The module contains 2 RJ45 ports.

Colour: Black
Goes with: Goes with all of Kinnarps' configurable electrical modules in optional socket module

SOCKET MODULE EHH
ACM-EHH

The module contains 2 non-charging USB 3.0 ports.

Colour: Black
Goes with: Goes with all of Kinnarps' configurable electrical modules in optional socket module

SOCKET MODULE EII
ACM-EII

The module contains 2 HDMI 2.0 ports.

Colour: Black
Goes with: Goes with all of Kinnarps' configurable electrical modules in optional socket module

SOCKET MODULE EHI
ACM-EHI

The module contains 1 non-charging USB 3.0 port and 1 HDMI 2.0 port.

Colour: Black
Goes with: Goes with all of Kinnarps' configurable electrical modules in optional socket module

SOCKET MODULE FG
ACM-FG

The module contains 1 RJ45 port.

Colour: Black
Goes with: Goes with all of Kinnarps' configurable electrical modules in optional socket module

SOCKET MODULES

SOCKET MODULE FH
ACM-FH

The module contains 1 non-charging USB 3.0 port.

Colour: Black
Goes with: Goes with all of Kinnarps' configurable electrical modules in optional socket module

SOCKET MODULE FI
ACM-FI

The module contains 1 HDMI 2.0 port.

Colour: Black
Goes with: Goes with all of Kinnarps' configurable electrical modules in optional socket module

POWER TRAY
PT2T51

Decorative cover tray for Power Dot 51. For 2 cable ports.

Connections: Optional installation of Power dot 51
Dimensions: 160x85x1.5 mm
Colour: Black or white
Goes with: Oberon, Nexus

POWER TRAY
PT3T51

Decorative cover tray for Power Dot 51. For 3 cable ports.

Connections: Optional installation of Power dot 51
Dimensions: 235x85x1.5 mm
Colour: Black or white
Goes with: Oberon, Nexus

POWER DOT 51
T51PD1

Power sockets for placement in 51 mm holes. Connection cable is included.

Dimensions: 51 mm
(Ø57 mm wide, 65 mm deep)
Colour: Black or white
Goes with: Universal

POWER DOT 51
T51PD2

Power socket for placement in 51 mm holes. Connection cable is included.

Connections: 2 charging USB A,
(5V, total max 2.4A)
Dimensions: 51 mm
(Ø57 mm wide, 65 mm deep)
Colour: Black or white
Goes with: Universal

POWER DOT 80
T80PGR

Power socket for placement in 80 mm hole. The inner section can be twisted and lifted for easy installation of other cables. Connection cable is included.

Connections: 1 power socket,
4 cable ports
Dimensions: 80 mm
(Ø83 mm wide, 49 mm deep)
Colour: Black or white
Goes with: Universal

WIRELESS CHARGING UNIT
T80WCU

Functional and elegant wireless charging with Qi standard for mobile phones. The power is 5W. Connection cable is included.

Dimensions: 80 mm
(Ø94 mm wide, 20 mm deep)
Colour: Black
Goes with: Universal

POWER DOT 80
T80PD1

Power socket for placement in 80 mm hole. The inner section can be twisted and lifted for easy installation of other cables. Connection cable is included.

Connections: 1 power socket,
2 charging USB A (5V/2.4A in total),
1-2 cable ports
Dimensions: 80 mm
(Ø83 mm wide, 89 mm deep)
Colour: Black or white
Goes with: Universal

POWER DOT 80
T80PD2

Power socket for placement in 80 mm hole. The inner section can be twisted and lifted for easy installation of other cables. Connection cable is included.

Connections: 1 power socket,
1 charging USB A (5V/2.4A in total),
1 USB C port (Gen 3.1), 2 cable ports
Dimensions: 80 mm
(Ø83 mm wide, 68 mm deep)
Colour: Black or white
Goes with: Universal

CABLE MANAGEMENT

Create clean work surfaces by collecting cables and power sockets. Keeping it tidy both above and below the table gives a clean and calm impression, thus making space for more creativity and productivity.

CABLE PORT
O300

For fixed placement in the tabletop. Lid and frame in anodized aluminium, should be supplemented with a cable tray.

Dimensions: 275x120x25.5 mm
(Hole pattern: 259x102 mm)
Colour: Silver
Goes with: Series[P], Oberon, Nano and Nexus

CABLE PORT T80
T80M

Stylish metal sleeve that is placed in a tabletop, 80 mm hole. A cable umbilical fixing with a removable lid.

Dimensions: 80 mm
(Ø90 mm wide, 18 mm deep)
Colour: Silver
Goes with: Universal

CABLE PORT T80
T80

Cable port for placement in 80 mm holes. Round plastic sleeve with a three-part lid to accommodate different numbers of cables.

Dimensions: 80 mm
(Ø88 mm wide, 22 mm deep)
Colour: Black, white or grey
Goes with: Universal

CABLE UMBILICAL GROMMET
T50

With edge cutout and plastic lid. For cable port and installation of accessories e.g. desktop screens and monitor arms.

Dimensions: 92x70x22 mm
Colour: Silver, black or white
Goes with: Nano and Nexus

CABLE PORT
T97

Rectangular cutout in the tabletop with a durable plastic strip.
Dimensions: 97x35 mm
Colour: Silver, black or white
Goes with: Universal

CABLE PORT SCALLOP
T430

A small cutout in the tabletop with lipping that gives the same elegant design as the rest of the table. Use for fasteners for e.g. monitor arms.

Dimensions: 430x35 mm
Colour: Matches the colour of the tabletop
Goes with: Goes with Nano bench and Nexus bench

CABLE TRAY
OACT3S

A simple and open solution for cable management with dividers and clips. Mounted directly in the tabletop.

Dimensions: 790x110x00 mm (Distance from the underside of the cable tray to the underside of the tabletop: 105 mm)
Colour: Silver
Goes with: All desks, non-sliding tabletop

CABLE TRAY
EACT2S

A simple and open solution for cable management. Mounted directly in the tabletop.

Dimensions: 490x100x80 mm (Distance from the underside of the cable tray to the underside of the tabletop: 84 mm)
Colour: Silver
Goes with: All desks, non-sliding tabletop

CABLE TRAY MESH
CTM

Spacious tray in mesh fabric that collects and conceals cabling. Fitted with little visibility between the table's beams.

Dimensions: Length 750 mm, width 730 mm
Colour: Black
Goes with: Nexus conference table

CABLE TRAY
OBACT33

Fasteners are mounted on the beam. Can become conductive and shield electrical fields through earthing.
Dimensions: 330x132x69 mm (available in the following dimensions: 330, 530, 730, 930, 1230, 1530 mm) (distance from the underside of the cable tray to the underside of the tabletop: 130 mm)
Colour: Black, white or silver
Goes with: Oberon

CABLE TRAY
OACT33

Single cable tray with fasteners that is mounted on the beam. Available in several lengths.

Dimensions: 330x132x69 (available in the following lengths: 330, 530, 730, 930, 1230, 1530 mm) (distance from the underside of the cable tray to the underside of the tabletop: 146 mm)
Colour: Black, white or silver
Goes with: Series[E] one

CABLE TRAY
EACT33

Basic version that fits tables without sliding tabletops. Mounted directly in the tabletop.

Dimensions: 33x13570 (available in the following dimensions: 330, 530, 730, 930, 1230, 1530 mm) (distance from the underside of the cable tray to the underside of the tabletop: 146 mm)
Colour: Grey, silver, white and black
Goes with: All desks, non-sliding tabletop

CABLE TRAY
POCB1200

Sturdy cable tray mounted between the frame brackets. Large space for cables, multiway sockets and adapters and with inbuilt lid to conceal everything. There are cut-outs in the ends to hide any cables running between the units. Add POCCV to bring cables down vertically towards the table legs.

Dimensions: 935x220x106 mm (available in the following lengths: 1400, 1600, 1800, 2000 mm.)
Colour: Black, white or silver
Goes with: Polaris Duo

CABLE TRAY
TACT700, TACT400

For fixed mounting with screws directly in the tabletop. The fasteners are pre-mounted when ordered. Easy access as it can be opened from both the front and rear. Can be earthed to shield electrical fields.

Dimensions: 700x180x100 (distance from the underside of the cable tray to the underside of the tabletop: 100 mm)
Colour: Black, white or silver
Goes with: All desks, non-sliding tabletop

CABLE TRAY
PACT93

PACT is specially customised for tables with a sliding tabletop. Mounted in beam. Can become conductive and shield electrical fields through earthing.

Dimensions: 1230x132 x69 (distance from the underside of the cable tray to the underside of the tabletop: 127 mm)
Colour: Black, white or silver
Goes with: Series[P] Sliding tabletop

CABLE TRAY
ACT1-870

Stylish and discreet cable management that is attached to the beam. Can be unhooked and folded down on each side. The chamfered edge catches the branch sockets when folded down.

Dimensions: 870x150x52 mm
(available in the following dimensions: 870, 1070, 1270, 1470, 1670 mm)
(distance from the underside of the cable tray to the underside of the tabletop: 73 mm in the highest position, 98 mm in the lowest position)
Colour: Black, white or silver
Goes with: Series[P]

CABLE TRAY
NACT1270

Discreet cable management, fastened to the beam and adjustable in two heights. Can be unhooked and folded down on either side. The chamfered edge catches the branch sockets when folded down.

Dimensions: 1270x150x52
(available in the following dimensions: 270, 470, 670, 870, 1070, 1270, 1470, 1670, 2070 mm) (distance from the underside of the cable tray to the underside of the tabletop: 73 mm in the highest position, 98 mm in the lowest position)
Colour: Black, white or silver
Goes with: Nano, Nexus

CABLE TRAY
NBACT1052

Spacious cable tray that is laterally foldable for easy access. The fastener is mounted on the beam and the cable tray is hooked in place.

Dimensions: 1052x370x83
(available in the following dimensions: 1052, 1252, 1452, 1652, 1852 mm)
(distance from the underside of the cable tray to the underside of the tabletop: 123 mm)
Colour: Silver
Goes with: Nano and Nexus bench

CABLE TRAY
POACT870

Spacious and adjustable cable tray to collect cables and power sockets. The fastener is mounted on the beam. Easy to angle downwards in both directions or to unhook fully.

Dimensions: 870x150x52
(available in the following lengths: 1070, 1270, 1470, 1670 mm)
Colour: Black, white or silver
Goes with: Polaris

VERTICAL CABLE COLLECTOR
POCCV

Practical and vertical cable tray that leads the cables vertically downwards towards the cable outlet box in the flooring. Used together with cable tray POCB. Great option when access to the mains is from a floor box.

Dimensions: Height 407 mm
Colour: Black, white or silver
Goes with: Polaris Duo

CABLE COLLECTOR
NACC

Stylish and vertical cable collector in metal that attaches to round legs.

Dimensions: Height490 mm, Ø50 mm legs
Colour: Black, white or silver
Goes with: Nexus and Nano

CABLE COLLECTOR
NACCA

Stylish and vertical cable collector in metal that attaches to rectangular and square legs.

Dimensions: Height 568 mm, 50 mm square/rectangular legs
Colour: Black, white or silver
Goes with: Nexus and Nano

CABLE HOLDER
A4CS

Flexible cable holders that close using Velcro. Sold in packs of 4.

Colour: Black
Goes with: Universal

CABLE HOLDER
OA3CC

Fasten the holder smoothly to the beam. Sold in packs of 3.

Colour: Grey
Goes with: Series[E] one

CABLE CLIPS
1CH

A solution to get cables in order. Mounted on beam. Sold in packs of 4.

Colour: Black
**Goes with:** Oberon, Nano and Nexus

CABLE BOX
1NEXCB

Spacious box for easy cable management. Height adjustment.

Dimensions: 346x103x552 mm
Colour: Black, white or silver
Goes with: Nexus and Nano bench

CABLE UMBILICAL
PAW110

Easily tidy up loose cables. The umbilical is made of plastic and is mounted directly into the tabletop. Can be fastened horizontally under tables, or down to the floor. Can be joined together. For normal table height.

Dimensions: Length 1100 mm
Colour: Black
Goes with: All tables at sitting height

CABLE UMBILICAL
PAW130

Easily tidy up loose cables. The umbilical is made of plastic, has a foot, and is mounted directly into the tabletop. Can be fastened horizontally under tables, or down to the floor. Can be joined together. For higher table heights.

Dimensions: Length 1300 mm
Colour: Black
Goes with: All sit & stand tables

CABLE RISER
EAR

Stylish, fabric-covered solution made of conductive material to gather cables. Two separate plastic channels inside. Zip on the outside. Can be connected to the floor, ceiling or wall.

Dimensions: Length 800 mm
Colour: Dark grey
Goes with: All tables at sitting height

CABLE RISER
EAR SS

Stylish, fabric-covered solution made of conductive material to gather cables. Two separate plastic channels inside. Zip on the outside. Can be connected to the floor, ceiling or wall.

Dimensions: Length 1350 mm
Colour: Dark grey
Goes with: All sit & stand tables

CABLE COLLECTOR
EACC, EACC30

Simple solution for collecting cables. The collector is made of plastic, and the diameter of 20 mm holds 4-6 cables. Sold in lengths per 3 metre intervals.

Dimensions: EACC 3 metre interval, EACC30 30 metres
Colour: Light grey
Goes with: Universal

TOOL FOR CABLE COLLECTOR
EACCT

Used in combination with cable collector EACC, EACC30. Simplifies the feeding of cables through the plastic pipe.

ACT-1

CPU HOLDERS

A clean and professional impression provides a pleasant working environment. Fasten the computer under the tabletop to create free space, which makes it easy to keep your desk and floor tidy. It also helps you to avoid annoying noise from the computer.

CPU HOLDER 1F
EACH1F, OACH1F

A wide strap around the computer provides a stable vertical suspension. The fastener is mounted in the tabletop. Rotating Does not fit tables with a sliding tabletop. Not lockable. For OACH1F, mount the fastener on the beam.

Dimensions: Max. dimensions of computer 500x225 mm. Minimum computer dimensions 257x90 mm.
Max. weight: 20 kg
Colour: Silver
EACH1F Goes with: Series[E] one, Series[P] and Oberon
OACH1F Goes with: Series[E] one

CPU HOLDER 1
EACH1, NACH1, OACH1, OBACH1

A wide strap around the computer provides a stable vertical suspension. The fastener is mounted in the tabletop. Height adjustment. Easy to rotate and slide forwards or backwards. Does not fit tables with a sliding tabletop. Not lockable.

Colour: Silver
Max. weight: 20 kg

EACH1
Dimensions: Max. dimensions of computer 500x225 mm. Minimum computer dimensions 257x90 mm.
Goes with: Series[E] one, Series[P] and Oberon
NACH1
Dimensions: Max. dimensions of computer 460x240 mm. Minimum computer dimensions 257x90 mm.
Goes with: Nano and Nexus
OACH1, OBACH1
Dimensions: Max. dimensions of computer 500x225 mm. Minimum computer dimensions 257x90 mm.
Goes with: Series[E] one and Oberon

CPU HOLDER 2
EACH2, NACH2, OACH2, OBACH2

Elegant and vertical computer suspension. The fastener is mounted in the tabletop. Possible to adjust the height, slide forwards and backwards, and rotate. Does not fit tables with a sliding tabletop. Not lockable.

Colour: Silver
Max. weight: 20 kg

EACH2
Dimensions: Max. dimensions of computer 510x240 mm. Min. dimension of computer 290x90 mm.
Goes with: Series[E] one, Series[P], Oberon and Polaris
NACH2
Dimensions: Max. dimensions of computer 445x240 mm. Min. dimension of computer 290x90 mm.
Goes with: Nano and Nexus
OACH2, OBACH2
Dimensions: Max. dimensions of computer 510x240 mm. Min. dimension of computer 290x90 mm.
Goes with: Series[E] one and Oberon

CPU HOLDER 5
EACH5, NACH5, OACH5, OBACH5

Simple vertical suspension of a computer with two dark grey straps. The fastener is mounted in the tabletop. Possible to adjust the height, slide forwards and backwards, and rotate. Not lockable. EACH5 does not fit tables with sliding tabletops. For NACH5 and OACH5, the fastener is mounted in the beam.

Colour: Silver
Max weight: 15 kg

EACH5
Dimensions: Max. dimensions of computer 510x240 mm. Minimum computer dimensions 200x90 mm.
Goes with: Series[P], Oberon and Polaris
NACH5
Dimensions: Max. dimensions of computer 480x240 mm. Minimum computer dimensions 200x90 mm.
Goes with: Nano and Nexus
OACH5, OBACH5
Dimensions: Max. dimensions of computer 480x240 mm. Minimum computer dimensions 200x90 mm.
Goes with: Series[E] one and Oberon

MONITOR ARMS

During your work day, you spend a lot of your time in front of the computer screen. This makes functionality and customisation important. Tilt, rotate and move the screen to easily position it exactly where you want it.

TA50M

MONITOR ARM
TA50M

Can be swivelled or rotated. Mounted with a clamp in the tabletop. A quick monitor fastener is included and can be supplemented with an iPad holder. Integrated cable channel in the first part of the arm.

Fastener: VESA 75/100
Dimensions: Max. length 457 mm. Height adjustable 341 mm.
Load: 9 kg
Colour: Black or white
Goes with: Universal

HOLDER FOR IPAD
TAI50

Holder for iPad 1, 2 and 3 that attaches to an adjustable monitor arm from our range. The plate can be turned and rotated.

Load: 9 kg
Colour: Silver
Goes with: TA50M

MONITOR ARM
TA61M

Four-jointed single arm. With a clamp for mounting on tabletops. Can be swivelled or rotated.

Dimensions: Max. length 500 mm, max. height 370 mm
Max. weight: 14 kg
Colour: Silver or white
Goes with: Universal

MONITOR ARM
TA62M

Four-jointed duo arm. With a clamp for mounting on tabletops. Can be swivelled or rotated. Provides limited setting options together with a desktop screen.

Dimensions: Max length 890 mm, max height 370 mm
Max. weight: 14 kg
Colour: Silver or white
Goes with: Universal

GAS MONITOR ARM
TA71M, TA7151

Single arm with gas suspension that allows the screen to move around effortlessly. With a clamp for mounting on tabletops. Fastener for mounting in 51 mm diameter holes. Can be swivelled or rotated.

Dimensions: Max. length 542 mm, max. height 510 mm
Load: 3-8 kg
Colour: Black, white or silver
Goes with: Universal

GAS MONITOR ARM HEAVY
TA71HM, TA71H51

Single arm with gas suspension that allows the screen to move around effortlessly. Withstands heavier loads. With a clamp for mounting on tabletops. Fastener for mounting in 51 mm diameter holes. Can be swivelled or rotated.

Dimensions: Max. length 640 mm, max. height 580 mm
Load: 8-19 kg
Colour: Silver or white
Goes with: Universal

GAS MONITOR ARM
TA71FR

Single arm with gas suspension that allows the screen to move around effortlessly. A fastener for mounting in flexrail. Can be swivelled or rotated.

Dimensions: Max. length 542 mm, max. height 510 mm
Load: 3-8 kg
Colour: Black, white or silver
Goes with: All tables with flexrail

GAS MONITOR ARM
TA72M, TA7251

Duoarm with gas suspension that allows the screen to move around effortlessly. With a clamp for mounting on tabletops. Fastener for mounting in 51 mm diameter holes. Can be swivelled or rotated. Provides limited setting options together with a desktop screen.

Dimensions: Max. length 1000 mm, max. height 510 mm
Load: 3-8 kg per arm
Colour: Black, white or silver
Goes with: Universal

GAS MONITOR ARM HEAVY
TA72HM, TA72H51

Arm with gas suspension and equipped with twinbar for mounting two monitors in parallel. Withstands heavier loads. With a clamp for mounting on tabletops. Also with fastener for mounting in 51 mm diameter holes. Can be swivelled or rotated. Provides limited setting options together with a desktop screen.

Dimensions: Max. length 790 mm, max. height 580 mm
Load: 8-19 kg
Colour: Silver or white
Goes with: Universal

GAS MONITOR ARM
TA72FR

Duoarm with gas suspension that allows the screen to move around effortlessly. A fastener for mounting in flexrail. Can be swivelled or rotated. Provides limited setting options together with a desktop screen.
