

Sustainable and functional education storage solution

Having the right storage in the right place creates order, peace of mind and the conditions for an efficient and frictionless flow. Education Storage is a sustainable and functional storage series with a uniform look. The series consists of tall cabinets, cabinets, wall cabinets, caddies, and drawer and cube unit storage.

To create a calm visual environment, you can choose storage with doors or drawers. Soft-closing hinges, silent drawer slides and bumpers on door and drawers improve the acoustic environment, promoting a good atmosphere for studying in the classroom.

A school day contains many different learning situations, an environment can easily be customised to support different activities with storage on castors. For example, it can be used to divide a room into zones or be placed against the wall to free up floor space.

Education Storage is a sustainable choice that can be maintained over time. Parts such as handles, shelves, doors and castors can be easily replaced when needed to extend the life of the product. The storage unit is tested and approved in accordance with current European standards and is Möbelfakta-labelled, which guarantees that it meets high requirements for quality, safety, the environment and social responsibility. The series is also FSC® labelled as proof of responsible forestry that respects both people and the environment. Choose from carefully selected and quality-tested surfaces from Kinnarps Colour Studio.

Functional and sturdy material cabinets, display cabinets or tall cabinets that offer spacious storage. To reduce distractions and create a calm visual environment, cabinets with doors are recommended. Soft-closing hinges and door bumpers improve the acoustic environment, promoting a good atmosphere for studying in the classroom. Doors can be opened to 110° for good access.

The plinth has a recess at the rear edge for a skirting board so that the storage unit can be placed close to the wall. Built-in adjustable feet make it easy to adjust the cabinets to uneven floors. To withstand more weight, the shelves are 22 millimetres thick, the shelves are also movable and can be customised to your needs. Tall cabinets must be fastened to the wall to prevent tipping, a tipping protection kit is always included.

The cabinets are also available with glass doors. It is important to choose the right type of glass to avoid the risk of injury. Education Storage has CE-labelled thermally toughened safety glass (SS-EN 12600 - 1,C,3), which means that it is resistant to impacts.

Parts such as handles, shelves and doors can easily be replaced when needed to extend the lifespan. Optional cremone bolt locks for safe storage. Choose from carefully selected and quality-tested materials from Kinnarps Colour Studio.

Functions & options

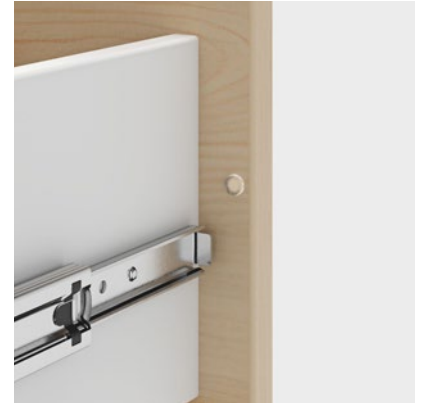

WOODEN PLINTH

The plinth has a recess at the rear edge for a skirting board so that the storage unit can be placed close to the wall. Built-in adjustable feet make it easy to adjust the storage units to uneven floors.

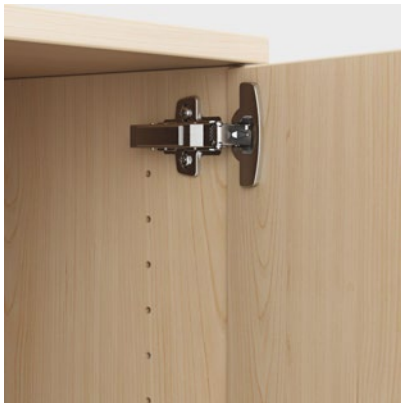

METAL WHEEL BASE

Choose an underframe with swivel castors for flexible spaces. The front castors are lockable.

DRAWER AND DOOR BUMPERS

Bumpers provide a smoother and quieter closing and improve the acoustic environment.

SOFT-CLOSING HINGES

Soft self-closing hinges improve the acoustic environment. Can be opened to 110° for good access.

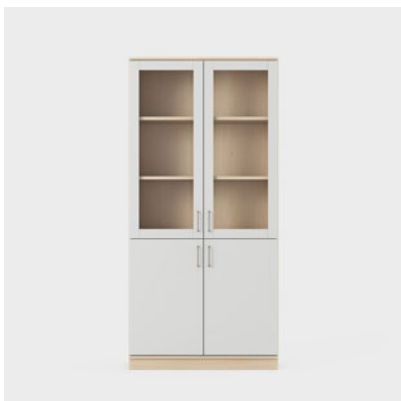

SHELF ADJUSTMENT

The shelves in cabinets and the caddies are movable. Customise your storage to suit your needs.

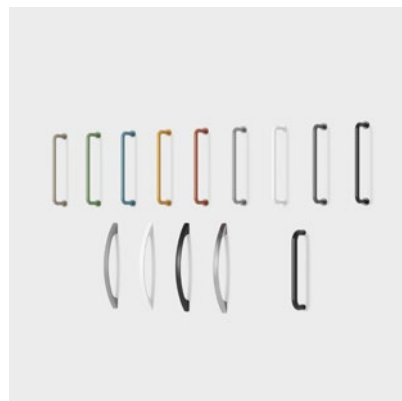

EXTRA SHELF

Additional shelves are available as options for cabinets and caddies.

MIX SURFACES

The carcass and front are available in different materials, all to find the look that best suits your environment.

HANDLES

The handles are rounded for safe spaces. Available in black plastic or metal in several different colours.

TIPPING PROTECTION KIT

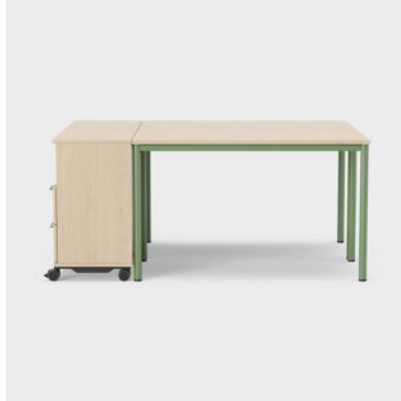

Storage units with three or more shelves must be secured to the wall to prevent tipping (does not apply to cube unit storage). A tipping protection kit is always included.

Functions & options

BRACKETS

Storage units can be mounted side-by-side and back to back and be placed freestanding in a room. Mounting brackets are always included.

CUSTOMISED HEIGHT

The drawer and cube unit storage have the same height as our student desks. This extends the table surface and offers an extra working surface.

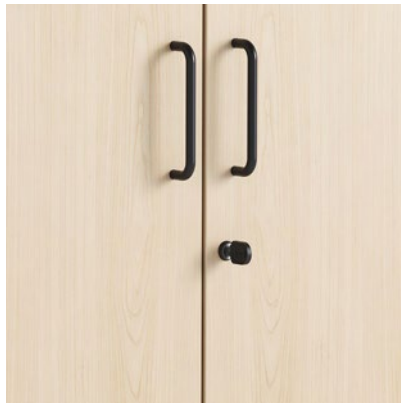

CREMONE BOLT

Cabinets can be equipped with cremone bolt locks for safe storage.

CYLINDER LOCK

The caddy drawer and door can be ordered with a lock.

EXTRA KEY

An additional key is available as an option.

SIDE TABLE FOR CADDY

The caddy has a sturdy flap that can be folded out for an extra working surface.

RE:FILL BOX

Storage box made of recycled re:fill material for quieter storage. Can be used as storage in cabinets as well as freestanding.

DRAWER INSERT

Storage solution with drawers. Can be placed on shelves where drawer storage is needed.

STORAGE TRAY

Create order in drawers and on shelves with this insert with compartments.

Colours & materials

Kinnarps Colour Studio (KCS) is our range of materials for offices, schools and healthcare facilities, with a focus on sustainability, quality and harmony. It offers attractive materials that have been carefully tried and tested for suitability and sustainability in different types of spaces. The wide range makes it easy to find the look and functionality you want.

Wood, metal, plastic, and textiles, colours and patterns that are easy to mix and match with each other and the rest of the interior design. A well-thought-out range that provides a harmonised and sustainable overall impression, and makes it possible to choose the right material and the right colour for the right place and activity.

Drawer fronts and doors Choose between veneer and laminate.

Base Plinth in veneer or laminate.

Wheel base Metal, swivel castors in black plastic.

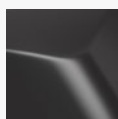

Handles Black plastic, metal handles in various colours available as an option.
