

Multi-purpose wooden table

Elsa is a simple, functional range of tables that suits various types of learning and working environments. The range has a soft design, the legs are rounded and the tabletops can be ordered with rounded corners.

The tables are available in three different heights – table heights of 550 and 600 mm are suitable for younger children, and 724 mm is suitable, for example, in canteens or for group work and play. All versions work equally well in staff areas as a lunch table or as a sofa table in various kinds of working environments.

Choose between rectangular and round shapes in several sizes, depending on your needs. The table has been designed to give users ample leg and thigh room under the table. It is made of renewable FSC®-labelled wood, which guarantees responsible forestry that meets rigorous social and environmental standards.

The design features minimal components, all of which can be separated and recycled, making Elsa both easy to maintain over time and sustainable – environmentally and economically. The tabletop is available with durable high-pressure laminate and sound-absorbing marmoleum in several colours. In addition to these tabletop options, veneer is also available.

Functions & options

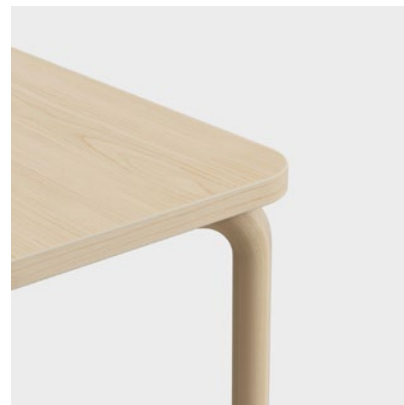

LEGS IN THREE DIFFERENT HEIGHTS

All tables are available in three different heights – 550, 600 and 724 mm.

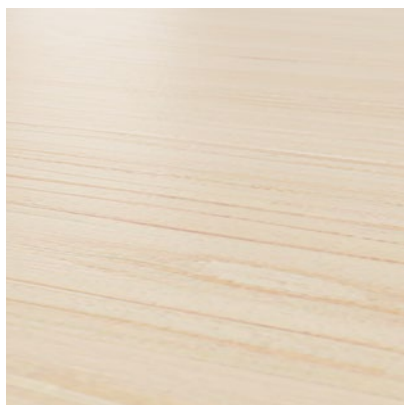

TABLE WITHOUT RIM

The table has no rim, providing users with ample leg and thigh room under the table.

TABLETOP WITH RADIUS 50

Rectangular tabletops are available with rounded soft corners to create even safer spaces.

VENEERED TABLETOP

Choose a wood veneer tabletop for a table in a beautiful natural material with a vibrant and warm look.

HIGH-PRESSURE LAMINATE (HPL)

Elsa is available in durable high-pressure laminate. An extra durable alternative in high traffic spaces.

MARMOLEUM

Pleasantly warm, sound-damping tabletop. The patterned surface makes it more forgiving.

Colours & materials

Kinnarps Colour Studio (KCS) is our range of materials for offices, schools and healthcare facilities, with a focus on sustainability, quality and harmony. It offers attractive materials that have been carefully tried and tested for suitability and sustainability in different types of spaces. The wide range makes it easy to find the look and functionality you want. Wood, metal, plastic, and textiles, colours and patterns that are easy to mix and match with each other and the rest of the interior design. A well-thought-out range that provides a harmonised and sustainable overall impression, and makes it possible to choose the right material and the right colour for the right place and activity.

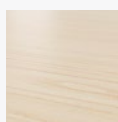

Tabletop Veneer, HPL & Marmoleum.

Legs Moulded leg in wood (birch). Fixed table height of 550 mm, 600 mm and 724 mm.
