

Sit/Stand desks for flexibility

The stable sit/stand desks in Series[P] are designed to suit today's flexible worklife. They are easy to raise and lower, available in many different finishes with smart options and fulfil all ergonomic requirements for movement and variation.

The desks are customised for different needs, situations and working environments. The quick, silent desk height adjustment means that you can easily alternate between standing and sitting and provide good ergonomics however you are feeling on the day or whatever the shape of your body.

The stylish design and smart accessories such as cable management, modesty panels and a powerbox mean that Series[P] can always be customised to the person, task and surroundings. The tables are easy to adjust from the upper side of the foot in order to level them with the floor.

It has a sleek and clean design. Choose tabletop and leg materials from Kinnarps Colour Studio.

Functions & options

TOP WITH CUTOUT

The cutout allows you to get closer to the work surface and gives you an ergonomically correct posture. It is especially good when you are working with two monitors.

CHAMFERED EDGE

A top with a chamfered edge gives the desk a light and slightly floating look. Laminate tops have vertical lipping, and veneer tops have clear lacquered MDF.

ADJUSTABLE FEET

All desks in Series[P] have an adjustable foot to compensate for uneven floor surfaces. The integrated adjustment screw is hidden, to give the legs a stylish look.

ACT

PACT

EACT

CABLE TRAY

Series[P] has several different cable trays, so you can choose the type of cable management that suits you best. The stylish, discreet ACT is mounted into the frame. It can be unhooked at either side or completely, and has folded edges which hold the power strip in place when the cable tray is unhooked. PACT is specially customised for desks with a sliding top. EACT is a basic functional version at a lower price.

HEIGHT ADJUSTABLE

The Series[P] sit/stand desks are height adjustable with the simple touch of a button. Regularly vary between sitting and standing work for the best ergonomics.

PROGRAMMABLE MANUAL CONTROL

Manual control that shows the table's current height and enables four preset heights to quickly switch between sitting and standing.

POWERBOX

Integrated into the table for easy access to electrical and network connections. Spacious compartments to conceal cables. Can also be closed when plugged in. Delivered with Wieland and an extension cord in several sizes.

Functions & options

POWER TRAY, PT2T51

Decorative cover tray for Power Dot 51.
For 2 cable ports.

POWER DOT 80, T80PD4

Power socket for placement in 80 mm hole.
1 cable port with soft cover that locks cables in place. A GST18 connection cable in various lengths.

CABLE PORT WITH ELECTRICAL SOCKET

Smart cable port with one power socket and four holes for other cables. A lot of functionality on a small space at a good price.

VENEER OR LAMINATE MODESTY PANEL

Supplement your desk with a modesty panel in wood veneer or laminate. Obstructs visibility from the front.

METAL MODESTY PANEL

Supplement your desk with a metal modesty panel in silver, white or black. Obstructs visibility from the front.

SILENT HEIGHT ADJUSTMENT

The desk can quickly be adjusted to the right height, which makes it easy to switch between sitting and standing work. Thanks to optimal motor insulation, it is almost silent.

650 AND 500 MM STROKE LENGTH

Series[P] is available in two height ranges (620-1270 mm and 680-1180 mm upper edge of the desk). The first range suits people up to approx. 200 cm tall, and the lower range, people up to approx. 185 cm tall. Both desks meet the requirements of EN527.

ISP

Series[P] has ISP as standard, which protects the electronics in the event of a collision with an object. As an option, there is an sensor-controlled collision protection (ANPI) for increased protection for the user increased safety.

FLEX BEAM

A flex beam is available as an option, which makes it easy to change the tabletop to other sizes when needs change. Everything for flexible solutions that can be customised to the situation and environment.

OPTI. Smart options and accessories for desks and meeting tables. For our full range, see kinnarps.com

Colours and materials

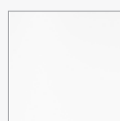

Kinnarps Colour Studio (KCS) is our range of materials for offices, schools and healthcare facilities, with a focus on sustainability, quality and harmony. It offers attractive materials that have been carefully tried and tested for suitability and sustainability in different types of spaces. The wide range makes it easy to find the look and functionality you want. Wood, metal, plastic, and textiles, colours and patterns that are easy to mix and match with each other and the rest of the interior design. A well-thought-out range that provides a harmonised and sustainable overall impression, and makes it possible to choose the right material and the right colour for the right place and activity.

The tops and underframes in Series[P] are available in several different materials and colours.
