

Comfortable chair with an embracing design

Cosa is a fully upholstered chair with an enclosing shape and a slightly flexible back, providing a comfortable and relaxed seating experience. It combines the comfort of an armchair with the sleek expression of a chair. The timeless and sustainable design makes it perfect for receptions, meeting and conference rooms, hotel lobbies, and cafés.

An exciting contrast arises between the generous seat and the slender metal frame, making Cosa a stylish eye-catcher. Choose between two four-legged frames – a fixed frame or a version with castors for easy adaptability. The model with glides also features a swivel mechanism with automatic return. The integrated seat and back create an inviting unity, while the smartly placed gap between them makes the chair easy to wipe and keep clean.

With a wide selection of quality-assured fabrics, leather, faux leather, and accent colours from Kinnarps Colour Studio, there are great opportunities to create a personal expression. All materials are sustainable and easy to match with different environments and interior styles.
