

Easy-to-place height adjustable table

Elevate is a functional, easy-to-place and durable table suitable for educational, office and care environments. The height can be easily adjusted with a gas spring that is controlled with a lever under the table. No power or charging is required, resulting in clean surfaces without annoying cables. This means that the table is easy to move, providing flexible spaces that are easy to rearrange when needed.

Elevate can be used as a student desk by students of different ages or as a desk in the office or home office. The table is an ergonomically good choice as you can adjust the height to suit individual needs, which provides more inclusive spaces. A height adjustable table supports variation and movement throughout the day, which is essential for good ergonomics. This in turn can increase concentration and improve learning.

Height adjustment also makes it easy to find the right height when sitting. Minor height adjustments during sedentary work also have positive effects, as you can easily adjust your working position and counteract static positions. The product is Möbelfakta labelled, which ensures high quality, in accordance with European Standard EN 1729-2, as well as social responsibility throughout the chain and non-toxic materials

Choose from different tabletop materials from Kinnarps Colour Studio.

Functions & options

HEIGHT ADJUSTABLE

The height of the table can be easily adjusted with a gas spring that is controlled with a lever under the table.

ADJUSTMENT FOR UNEVEN FLOORS

The table comes as standard with two levelling feet, which makes it easy to adjust the table to uneven floors.

MICRO CASTORS

As an option, there are two micro-wheels for extra smooth movement.

HOOK

Optional hook for easy hanging of a backpack or jumper.

HPL

Durable table top with High Pressure Laminate.

MARMOLEUM

Pleasantly warm, sound-damping tabletop. The patterned surface makes it more forgiving.

Colours & materials

Kinnarps Colour Studio (KCS) is our range of materials for offices, schools and healthcare facilities, with a focus on sustainability, quality and harmony. It offers attractive materials that have been carefully tried and tested for suitability and sustainability in different types of spaces. The wide range makes it easy to find the look and functionality you want.

Wood, metal, plastic, and textiles, colours and patterns that are easy to mix and match with each other and the rest of the interior design. This is a well thought-out range that provides a harmonised and sustainable overall impression, and makes it possible to choose the right material and the right colour for the right place and activity.

Top High Pressure Laminate (HPL) or marmoleum.

Underframe Metal. Choose from white, black or silver.
