

Easy-to-customise meeting chair

Tulio is a simple, yet well thought-out, visitor and meeting chair that is easy to customise to different needs and environments. Due to its flexibility in design and function, it is ideal for different types of meeting rooms and project spaces.

The chair is comprised of only a few components that can easily be replaced, making it circular and sustainable in the long term. Add or remove armrests, or change the back or fabric as you please. Tulio is an extra sturdy chair for weights up to 130 kg, making it a safe choice for more users.

It also has several ergonomic advantages with a flexing back, which provides natural movement and counteracts static sitting. The seat is curved providing an ergonomically correct seating surface distributing the user's weight over a larger area. It also has a rounded front edge that provides comfortable support for the legs. The sloping armrests give comfortable support for the arms and shoulders and fit easily under the tabletop.

Tulio is available in selected Kinnarps Colour Studio fabrics, which all meet stringent quality requirements. Choose a back in black mesh for good comfort and ventilation. Available in Joy faux leather, a durable material that is ideal for healthcare environments as it can be cleaned with a disinfectant and does not need to be wiped down with water after. Everything for safe and secure environments.

Unit mm, kg.

Functions & options

STACKABLE

Tulio is easy to stack, which creates rearrangeable spaces and provides space-efficient solutions. Use optional stacking protection.

STACKING PROTECTION

There is a practical stacking protection available as an option for stacking Tulio.

LINKABLE

For lateral linking of Tulio with 4-legs (without castors). The bracket is easily attached to/unattached from the chair.

ARMRESTS

Tulio can be supplied with sloped armrests in black for comfortable pressure relief for the arms. The angle of the armrests makes it easy to fit under the tabletop.

WRITING TOP

Mounted on the right-hand side of the chair. Provides a functional, easily accessible writing surface that saves space.

CASTORS

Castors are available as an option for chairs with 4-legged underframes. They provide easy movement and make it easy to push close to the table. Choose between castors for soft or hard flooring.

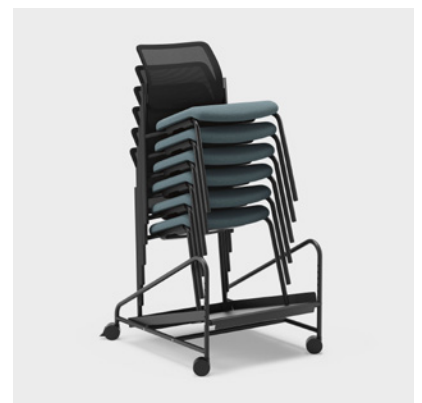

GLIDES

Tulio has plastic glides to add stability.

FELT GLIDE

If the chair is to be placed on hard flooring, adding felt glides under the legs will reduce scraping and provide a quieter acoustic environment.

TROLLEY

Tulio can be moved with a stacking trolley. The trolley on castors is easy to manoeuvre (two castors are lockable).

Colours & materials

Kinnarps Colour Studio (KCS) is our range of materials for offices, schools and healthcare facilities, with a focus on sustainability, quality and harmony. It offers attractive materials that have been carefully tried and tested for suitability and sustainability in different types of spaces. The wide range makes it easy to find the look and functionality you want. Wood, metal, plastic, and textiles, colours and patterns that are easy to mix and match with each other and the rest of the interior design. This is a well-thought-out range that provides a harmonised and sustainable overall impression, and makes it possible to choose the right material and the right colour for the right place and activity.

Seat/back Upholstered seat, upholstered back or mesh back. Choose fabrics from KCS price class Basic 1 and 2 or Joy faux leather.

Underframe 4-legs, 4-legs with castors or C-frame. Choose between silver, black and chrome.
