

Curvy and comfortable meeting chair

Monroe is our classic meeting and conference chair that is ideal for different types of meeting areas, meeting rooms or touch-down spaces for shorter periods of work. It's a soft, comfortable and fully upholstered chair where every curve has a meaning and each line a purpose. The back and seat of the chair are made as a single unit, with Nozag suspension in the seat for enhanced sitting comfort. The seat unit is moulded in High Resilience (HR) Foam, a foam with high responsiveness and shape stability, which quickly recovers its shape. This also extends the life cycle of the chair. The back has a natural springiness that counteracts static sitting and increases blood circulation. With a 5-star base, Monroe is height adjustable for individual adaptation of the seat height. Its swivel function and castors make the chair easy to move and customise for different situations.

Monroe is a sustainable choice and has been designed to last a long time in terms of look and functionality. It also carries the Möbelfakta label – a guarantee not only of non-toxic materials but also compliance with European quality and safety requirements for public spaces. The chair is comprised of a limited number of components, all of which can be replaced, updated and recycled, making it circular and sustainable in the long term. There are four different underframes to choose from: 4 legs, 4 legs with castors, sledge or 5-star base with castors. Vary the chair's design and adapt it to different spaces by choosing among all the quality-assured fabrics in Kinnarps Colour Studio.

Functions & options

FOUR LEGS

Monroe on a sturdy four-legged underframe. Available in different colours.

FOUR LEGS WITH CASTORS

Castors make the chair easy to move around and push close to the table. Choose between braked and unbraked castors.

SLEDGE

Well-designed sledge underframe. Available in different colours.

5-STAR BASE

The 5-star base is height-adjustable and has a swivel function, which makes the chair easy to adapt to the user and different meeting situations. Choose between braked and unbraked castors.

BACK WITH NATURAL SPRINGINESS

The back has a natural springiness that counteracts static sitting and increases blood circulation.

SEAT WITH NOZAG SPRINGS

The seat has Nozag springs for good comfort. Nozag springs are wave-shaped steel springs that are cast into the seat frame. They provide good deep suspension and distribute the user's weight evenly across the seat.

FULLY UPHOLSTERED

The chair has a completely upholstered seat unit for a soft and pleasant sitting position. Choose from the hundreds of colours and fabrics in Kinnarps Colour Studio to personalise the look.

ARMRESTS FOR 5-STAR BASE

Armrests providing pleasant support to the arms are available in two versions – upholstered or non-upholstered.

ARMRESTS FOR FOUR LEGS AND SLEDGE

Provide pleasant support; have armrest pads in black plastic.

**STACKABLE**

Monroe with four legs or sledge is stackable, which makes it easy to stow away.

**GLIDE**

Black stable glide.

**PLASTIC GLIDE/FELT GLIDE**

If the chair is to be placed on hard flooring, adding felt glides under the legs will reduce scraping and provide a quieter acoustic environment.

Colours & materials

Kinnarps Colour Studio (KCS) is our range of materials for offices, schools and healthcare facilities, with a focus on sustainability, quality and harmony. It offers attractive materials that have been carefully tried and tested for suitability and sustainability in different types of spaces. The wide range makes it easy to find the look and functionality you want. Wood, metal, plastic, and textiles, colours and patterns that are easy to mix and match with each other and the rest of the interior design. A well-thought-out range that provides a harmonised and sustainable overall impression, and makes it possible to choose the right material and the right colour for the right place and activity.
