HOTSPOT

When we wait we pick up our tablet or phone. We read. Work. Answer e-mails. With its beautiful shapes, Hotspot supports your choice. The name comes from the zone that offers free wifi access, a Hotspot. Where you can easily go online. The airport. The hotel. The railway station. This is a special easy chair. It asks you to sit down. Has carefully planned motion. A clear design and functionality. An easy-to-use work surface. Makes waiting go faster.

ADAPTS TO WHAT YOU ARE DOING

Hotspot is a flexible and comfortable chair suitable for use in many areas. As the shoulder rest can be swivelled horizontally, you can choose different seating positions for different activities - when using a laptop, reading or taking a quiet rest. The wide armrest can be fitted on the right or left and you can choose from either fabric or leather upholstery. Combine with a practical tray table or freestanding table for a total solution and a feeling of harmony.

MICHAEL SCHMIDT

Michael Schmidt's design philosophy is about designing innovative products that inspire people and tell a story. Hotspot is a new generation of furniture that encourages both activity and rest during hectic days at work. Personal and versatile all at the same time.

*"I want to design innovative products
that inspire people and tell a story".*

Michael Schmidt
