

School desk with adjustable height and spacious storage

Junior is a practical school desk that has been specially developed to provide practical storage close at hand for the student. Having school books and study materials at the student's seat can minimise negative distractions, such as running and interruptions. This promotes quiet study areas and concentration in the classroom and supports learning.

Junior has a sturdy underframe, making the school desk stable. Two levelling feet are included, which makes it easy to adjust the table to uneven floors. The top can be placed in two positions to vary the working position. Junior can be used as a school desk and storage for students of different ages, and is an ergonomically good choice as the table height can be customised to suit individual needs. The drawer offers spacious storage and there is a functional pen tray at the front. The desk comes with two hooks for easy hanging of bags and the like.

The product is also Möbelfakta labelled, which ensures that its materials are non-toxic and that the product complies with European quality and safety requirements for school environments. Junior offers two tabletop types with good acoustic properties: the HPL Acoustic tabletop has a hardwearing surface of high-pressure laminate that effectively dampens noise from hard objects and marmoleum gives a warm, pleasant surface with excellent sound-absorbing properties. As an option, micro castors can be added to the front pair of legs for smooth and silent movement.

Functions & options

HEIGHT ADJUSTMENT

The desk can be adjusted to suit individual needs, 70 – 100 cm.

ADJUSTABLE GLIDES

Two levelling feet are included, which makes it easy to adjust the table to uneven floors.

MICRO-CASTORS

As an option, micro castors can be added to the front pair of legs for smooth and silent movement.

HOOKS

The desk comes with two hooks for easy hanging of bags and the like.

TOP AND BAR

The top is angled at approx. 5° and can be made level using a bar. The top having two possible positions supports a varied working position.

PEN TRAY

There is a functional pen tray at the front of the desk.

FOOTREST

As an option, there is a practical, height-adjustable footrest that provides comfortable support for the legs.

SUSPENSION FRAME

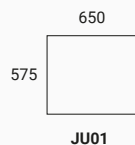

A practical suspension frame for hanging a chair under a table is available as an option. This frees up floor space, making cleaning easier.

MARMOLEUM

Pleasantly warm, sound-damping tabletop. The patterned surface makes it more forgiving.

Colours & materials

Kinnarps Colour Studio (KCS) is our range of materials for offices, schools and healthcare facilities, with a focus on sustainability, quality and harmony. It offers attractive materials that have been carefully tried and tested for suitability and sustainability in different types of spaces. The wide range makes it easy to find the look and functionality you want. Wood, metal, plastic, and textiles, colours and patterns that are easy to mix and match with each other and the rest of the interior design. This is a well-thought-out range that provides a harmonised and sustainable overall impression, and makes it possible to choose the right material and the right colour for the right place and activity.
